

SOPHISTICATED ORGANIC  JUNKFOOD AND BEER

# BEER Garden

## EAT SMART, BE PICKY

Nowadays more and more people become pickier when it comes down to food and question the quality of the products they eat and drink. That's something we definitely encourage, as BeerGarden exclusively uses organic, healthy products. Many of those are from Lindenhoff, a farm located in the small village of Baambrugge in the centre of The Netherlands. Lindenhoff takes care of its cattle's welfare and grows vegetables in a sustainable way. Our chef Erik Florissen likes going there himself, to pick out products and ingredients he and his crew use to prepare dishes. As we expect our guests to be critical about food, we want them to be assured of a nice, honest meal that tastes good in all possible ways.

### SOMETHING TO CELEBRATE?

There may come a moment in your life that you want to celebrate with friends, family, colleagues and/or complete strangers. If so, it might be convenient to know that BeerGarden actually has quite a nice parlour to rent for your party. Feel free to check out the space and ask staff members about the availability of the room we've named 'Kornuit Beer Hall'. That indeed refers to the Dutch brewery we are pretty fond of and notably is well represented on our beer menu.
